⌂ FrancoisCoding

A software development and performance engineering expert with 2+ years of experience in developing quality assured applications and supervising/training students. A collaborative developer and engineer with experience and education in the hardware and software sides of technology who thrives on discovery and accelerating performance.

Skills

PROFESSIONAL SKILLS

Technical Troubleshooting and Debugging

Software and Engineering Documentation

Systems Architecture and Operations

Teamwork and Cross-functional Communication

Performance Engineering

PROGRAMMING TECHNOLOGIES

JavaScript

Python

C#

ReactJS

Express

Git

SQL

Redux

SASS

MongoDB

Cypress Testing

Employment

CoachMe Health
Full Stack Engineer
https://www.coachmehealth.org/
Oct. 2019 to Dec. 2019

Developed and maintained system design documents (e.g. proofs of concept, requirements specification, subsystems) and collaborated with project managers to scope milestones, resource use, and report to clients (e.g. Patients) on project progress. Collaborated cross-functionally with clients and hardware engineers during the development and integration project phases to troubleshoot and/or debug software stacks. Converted requirements from clients into production ready APIs that enable customization and streamlined work progress. Interfaced with development engineers to develop test cases, diagnose problems, and develop debugging methodologies.

Lambda School
Team Lead
https://lambdaschool.com/
Nov. 2019 to Current

Mentored 10+ students on how to learn effectively and solve programming problems. Provided daily feedback and issue resolution of all curriculum through slack interface. Led daily standup meetings to build camaraderie, facilitate sharing of ideas and work progress, and provide guidance for that week's study material. Delivered one-on-one feedback and code review on a weekly basis giving feedback on areas of improvement.

Projects

CoachMe Health
Patient first non-profit organization dedicated to improving the health of low-income Americans with diabetes and heart disease with health coaching for those who need it most. Worked with a team to create an application to provide to the customers of clients.
Teach Stack: ReactJS | Redux | SASS | Twillio | Cron Jobs | ChartJS | Cypress

React Movies
An IMDB style real world Web Application in ReactJS. This application was built individually by me and serves to provide up to date movie infomation/details.
Tech Stack: ReactJS | Bootstrap

Francois Games
A gaming platform where users can view up to date information on the latest games. This application was built individually by me and serves to provide up to date game infomation/details.
Tech Stack: ReactJS | Bootstrap
