Employment

SpeechifAI
Lead Front-end Developer

Remote
Feb. 2021 to Current, Feb. 2021 to Current

SpeechifAI is the digital campaign suite for word-of-mouth marketing with ~$300k in annual revenues and investments.
• Built, iterated, and maintained interactive web pages, editable landing pages, and unique user experiences. Driving daily user engagement from ~600 - 5000 recurring users.
• Leveraged in-house APIs (REST) to build dynamic, interactive pages.
• Worked with Marketing UI/UX designers to translate designs into pixel perfect code.
• Be the expert on viability and approach to web projects.
• Defined and estimated work effort and duration.
• Grew technical knowledge by researching the latest development methods and techniques, sharing that information with the team and created development plans for them to grow within in their current realm.
• Developed new features to ensure the client needs were met, deadlines are achieved, and users have a seamless experience. This increased monthly recurring revenue 283.436% and 3x paying clients.

Bloom Institute of Technology
Team Lead

Remote
Oct. 2019 to July 2020

• Mentored 10+ students on how to learn effectively and solve programming problems.
• Provided daily feedback and issue resolution of all curriculum through Slack interface.
• Led daily standup meetings to build camaraderie, facilitate sharing of ideas and work progress, and provide guidance for that week's study material.
• Delivered one-on-one feedback and code review on a weekly basis, giving feedback on areas of improvement.

Projects

DevChat
Solo full-stack chat application allowing users to chat in real-time and video call any user across the platform.
Firebase| React.JS | Semantic UI |Redux | Moment
• Solely responsible for creating the entirety of the application which includes a platform where users can have conversations and video call.
• Utilized the Jutsu Video API in order to establish video connections between users

React Movies
Solo IMDB style Web Application that provides up to date movie information and details.
ReactJS | Bootstrap
• Solely responsible for creating the entirety of the application which includes a platform where users can view information on over 10,000 of the latest movies released.
• Utilized The Movie Database API in order to display all information about latest movie titles to users.

Beach Resort
E-commerce application featuring a hotel where users can view featured rooms, filter through rooms, receive updated room information and book rooms through PayPal
React.JS | Contentful | Redux | PayPal
• Solely responsible for creating the entirety of the application which includes a e-commerce platform where users can book a room at a virtual hotel.
• Utilized the Contentful CMS to create database to store rooms and the PayPal API to initialize user purchasing
